About us

Asian Thread Industries is a manufacturer and exporter of all kinds of industrial sewing thread, established in 2008 in Faisalabad, the heart of Pakistan's textile industry.

We are dedicated to giving our customers the widest range of shades, produced in a sustainable and ethical way. Our polyester threads are certified to OEKO-TEX® Standard 100 in Product Class I, and our quality management system is certified to ISO 9001:2015.

Products

AT-01 · POLYESTER

Spun Polyester

Ring-spun from 100% staple polyester and twisted for a smooth, even seam. Low shrinkage and strong colour fastness make it the everyday choice for woven and knit garments.

TEX RANGE	18–60
TICKET	55–180
CONE LENGTHS	2,500 / 5,000 m
USED FOR	Shirts, trousers, knitwear, home textiles
CERTIFICATION	OEKO-TEX Standard 100

AT-02 · CORE SPUN

Poly/Poly Core Spun

A continuous filament core gives high strength while the spun polyester wrap protects it from needle heat. Built for denim, workwear and heavy-duty seams.

TEX RANGE	27–80
TICKET	40–120
CONE LENGTHS	2,500 / 5,000 m
USED FOR	Denim, workwear, heavy seams
CERTIFICATION	OEKO-TEX Standard 100

AT-03 · CORE SPUN

Poly/Cotton Core Spun

A polyester core wrapped in cotton. The cotton cover takes garment dyes and washes; the core keeps the seam strong.

TEX RANGE	27–60
TICKET	55–120
CONE LENGTHS	2,500 / 5,000 m
USED FOR	Garment-dyed wear, shirts, chinos
CERTIFICATION	Test reports on request

AT-04 · FILAMENT

Denier Filament Polyester

Twisted continuous filament polyester with high tenacity and abrasion resistance. Suited to leather, bags, upholstery and top-stitching.

TEX RANGE	40–135
TICKET	25–80
CONE LENGTHS	1,500 / 3,000 m
USED FOR	Leather goods, bags, upholstery
CERTIFICATION	OEKO-TEX Standard 100

AT-05 · COTTON

Cotton Thread

Soft, natural 100% cotton sewing thread. It takes garment dyes, washes with the fabric and suits denim, garment-dyed wear and hand stitching.

TEX RANGE	20–60
TICKET	55–160
CONE LENGTHS	1,000 / 2,500 / 5,000 m
USED FOR	Denim, garment-dyed wear, hand stitching
CERTIFICATION	Test reports on request

AT-06 · SPECIALTY

Burmilana Thread

A soft, full-bodied thread that gives raised, colourful embroidery and decorative top-stitching. Available in a wide range of bright shades.

TEX RANGE	60–120
TICKET	25–55
CONE LENGTHS	1,000 / 2,000 m
USED FOR	Embroidery, decorative top-stitching, trims
CERTIFICATION	Test reports on request

AT-07 · SPECIALTY

Embroidery Thread

Bright, high-lustre 100% polyester embroidery thread that runs cleanly on multi-head embroidery machines with minimal breaks.

TEX RANGE	13–17
TICKET	190–250
CONE LENGTHS	5,000 m
USED FOR	Logos, decoration, fashion
CERTIFICATION	OEKO-TEX Standard 100

AT-08 · SPECIALTY

Multicolour Thread

Spun polyester dyed in sections so the shade changes every few centimetres. Each stitch picks up a new colour, for decorative top-stitching, denim details and fashion seams.

TEX RANGE	27–40
TICKET	80–120
CONE LENGTHS	2,500 / 5,000 m
USED FOR	Fashion details, denim, decorative top-stitching
CERTIFICATION	OEKO-TEX Standard 100
